Backend Development	Node.js, Express.js, Gin, Prisma ORM, MySQL, SQLite

Experience

Web Development Boot Camp - Purwadhika Digital Technology School

Remote

FULL STACK DEVELOPER – SCORE: 92.78/100

April 2024–October 2024

- Developed and deployed responsive full stack websites using React and Next.js, created RESTful APIs with Express, and managed databases with Prisma ORM and MySQL to efficiently handle CRUD operations.
- Utilized Git for version control, collaborating with peers on group projects and managing codebases.
- Participated in Agile development practices, working in sprints to meet project milestones and deadlines.

Projects

SIGMART - Online Grocery Website

PURWADHIKA DIGITAL TECHNOLOGY SCHOOL

August - October 2024

- Designed and developed the database using MySQL with Prisma ORM, creating efficient relational structures to support scalable data management and seamless integration with the application.
- Built an admin dashboard with user role management, allowing super admins to manage store admin accounts.
- Implemented product and inventory management features, allowing users to view, search, and manage products while tracking stock levels across multiple stores, including a journaling system for accurate stock history.
- Implemented a functional promotion management feature, allowing admins to set general promotions (including referral), store-specific promotions, product discounts, and free product offers.
- Generated sales and stock reports, providing insights into monthly performance, category trends, and inventory changes across stores.

EventCreate - Event Management Platform

PURWADHIKA DIGITAL TECHNOLOGY SCHOOL

July 2024

- Developed a user authentication system with role-based access control, utilizing cookies and JWT for secure session management.
- Implemented a referral program that rewards users with points for each referral used and provides discount vouchers to users who register using a referral.
- Created an event management dashboard for organizers to track events, registrations, transactions, and visualized statistics, enhancing operational efficiency and data insights.

HealthYo! - Company Profile

PURWADHIKA DIGITAL TECHNOLOGY SCHOOL

June 2024

- Developed a responsive and user-friendly website that integrates content from the Contentful headless CMS.
