Skills

Programming Languages	Typescript, Javascript, Python, SQL
Frontend Development	React, Next.js, Vite, Tailwind CSS, Shadcn, Material UI, Chakra UI, etc.
Backend Development	Express.js, Node.js, Prisma ORM, MySQL, SQLite

Experience

Web Development Boot Camp - Purwadhika Digital Technology School   *Remote*

Full stack Developer   *April 2024–October 2024*

- Developed and deployed responsive full stack websites using React and Next.js, created RESTful APIs with Express, and managed databases with Prisma ORM and MySQL to efficiently handle CRUD operations.
- Utilized Git for version control, collaborating with peers on group projects and managing codebases.
- Participated in Agile development practices, working in sprints to meet project milestones and deadlines.

Projects

SIGMART - Online Grocery Website

Purwadhika Digital Technology School   *August - October 2024*

- Developed an admin dashboard with user role management, allowing super admins to manage store admin accounts.
- Implemented product management features, enabling users to view, search, and manage products with data validation for integrity.
- Managed inventory and stock levels across multiple stores, using a journaling system for accurate stock history.
- Implemented a functional promotion management feature, allowing admins to set general promotions (including referral), store-specific promotions, product discounts, and free product offers.
- Generated sales and stock reports, providing insights into monthly performance, category trends, and inventory changes across stores.

EventCreate - Event Management Platform

Purwadhika Digital Technology School   *July 2024*

- Developed a user authentication system with role-based access.
- Implemented a referral program that rewards users with points for each referral used and provides discount vouchers to users who register using a referral.
- Created an event management dashboard for organizers to track events, registrations, transactions, and visualized statistics, enhancing operational efficiency and data insights.

HealthYo! - Company Profile

Purwadhika Digital Technology School   *June 2024*

- Developed a responsive and user-friendly website that integrates content from the Contentful headless CMS.

Education

Brawijaya University   *Malang, Jawa Timur*
